Sensient Technologies to expand manufacturing facility in Amboy, Illinois

MILWAUKEE, Wisconsin — Construction for the expansion of Sensient Technologies Corporation's manufacturing facility in Amboy, Illinois, is set to begin and company officials made it official with a ground-breaking ceremony on Monday, June 1, 2015.

The ceremony at 25 East Main Street included local dignitaries Mayor Tom Nauman and city aldermen as well as Sensient executives Sara Humphrey, Vice President of Operations and Steve Arrick, Sweet Flavors General Manager.

Construction will begin in early June and is expected to be completed in the second quarter of 2016. Approximately 50 new positions will be created as a result of this expansion, raising the total number of the employees to 180.

The expansion of the Amboy facility is part of the Sensient's efforts to streamline the global operations of its Flavors & Fragrances business. It will add 36,000 ft² of additional space in order to increase the Sensient's manufacturing capacity and add additional capabilities to serve customers in the dairy, confection and bakery markets.
