SENSIENT LAUNCHES WELL-BEING SENSIMUNE™ LINE

INDIANAPOLIS - Sensient Bio Pharma & Savory Flavors announced today its launch of Sensimune™, a line of well-being products for the animal nutrition markets. The products utilize proprietary yeast beta glucan technology obtained in a recent agreement with Biothera, a Minnesota-based biotechnology company.

Sensimune™ products boost the immune response for both livestock and companion animals. The Sensimune™ line is the result of an ongoing effort to deliver innovative solutions for the animal nutrition market across multiple applications and platforms.

“We’re excited to introduce this line of products that benefit the overall health and well-being of animals,” said Chris Gudaitis, General Manager for Sensient’s Bio Pharma & Savory Flavors division. “We look forward to our continued growth in these markets.”

Sensient Bio Pharma & Savory Ingredients is a global manufacturer of specialty ingredients that have wide applications in specific markets of food, fermentation, animal foods and nutrition. Our manufacturing, sales and product development teams span the globe, bringing solutions to our customers where they need them, when they need them.

Sensient Bio Pharma & Savory Flavors is a unit of Sensient Flavors & Fragrances Group, part of Sensient Technologies Corporation. Sensient Technologies Corporation is a leading global manufacturer and marketer of flavors, colors and fragrances, employing advanced technologies to develop specialty food and beverage systems, cosmetic and pharmaceutical systems, inkjet and specialty inks and colors and other specialty and fine chemicals.
